1. Vinicia Barber (nanny) Phone: (347) 295 - 5785

Cell: -

2. Phone: () -

Cell: -

We cannot release your child to anyone except those listed. Please use back of sheet for additional names and phone numbers if necessary, and notify us of any changes.

Play date pick-ups require written consent from both parties.

Please use this space to share a little information about your child. What are his/her dislikes? What information will help your teachers in getting to know your child? Are there any concerns or issues that might require a little extra "love"? Please also indicate if your child is still in diapers or in the process of potty-training.

Camden is 19.5 months and has an insatiable zeal for life. He is full of energy and constantly has a smile on his face. Camden interacts well with other kids and adults, and tends to adapt easily with new faces. He loves to engage in different activities, whether it involves music, art, gym or general learning. He is curious in nature and tends to get very focused when something is new. Camden is able to verbally communicate and quickly picks up on new words and phrases.

Camden is not potty-trained and will likely remain in diapers for the summer.
